

FLIP NO MORE

HA Minuteman G3R MIS Fusion System

Single Position 360 Fusion

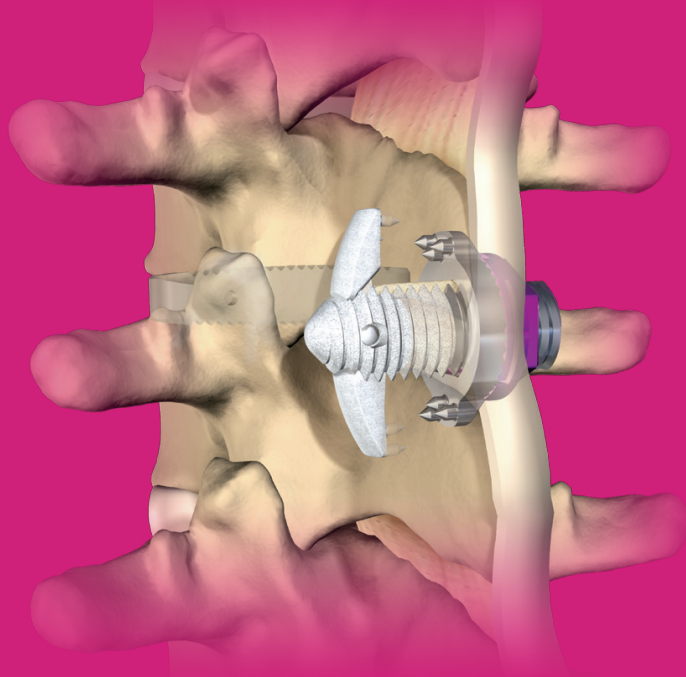

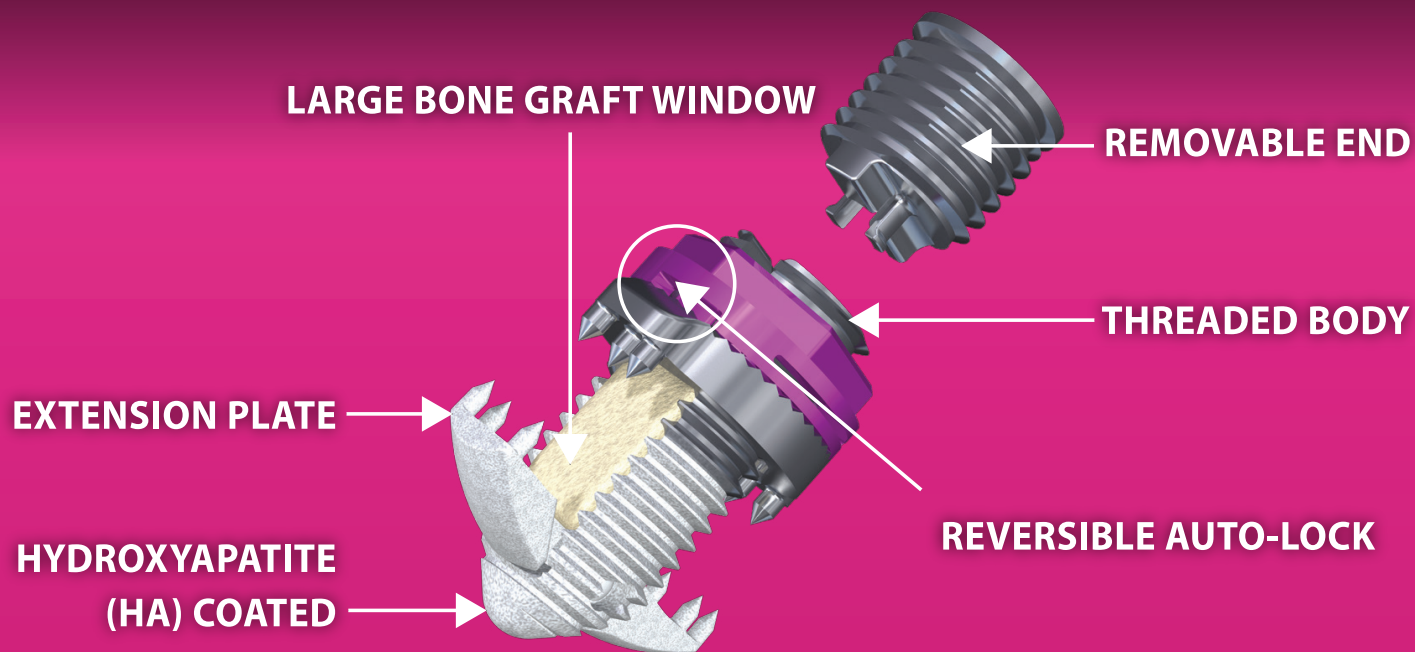

- ✓ Fusion alternative to pedicle screws
- ✓ Lateral MIS surgical technique
- ✓ No patient repositioning to back up direct lateral interbodies

Spinal fusion...simplified

- ✓ Reduces OR time
- ✓ Patients able to leave same day
- ✓ Little to no post-op pain
- ✓ Minimal tissue disruption
- ✓ Decreased blood loss
- ✓ 1-inch incision
- ✓ Decreased radiation exposure
- ✓ Economic benefits for facility and surgeon

Single Position 360 Fusion

- ✓ Supraspinous ligament remains intact
- ✓ Does not require neural monitoring
- ✓ Can be used as posterior fusion adjunct to a 360 fusion
- ✓ Minuteman placed with patient in prone or direct lateral position making it easy to back up any interbody procedure
